## PROFESSIONAL SUMMARY

Content and growth leader with 6+ years in EdTech, creator brands and digital media, including internships and freelance work since college. I build and scale YouTube channels, lead creative teams of 11–20 editors and designers, and run content end to end: strategy, scripting, editing, thumbnails, publishing and analytics. Channels I've worked on have 100M+ organic views. I'm also a content creator, and I built EditSutra, an AI-powered Premiere Pro extension, with Claude Code.
