SUMMARY

Content lead with 6 years running YouTube and Instagram for EdTech companies, creators and brands. I decide what gets made, who makes it and how it ships, then judge it by the numbers. Channels I have worked on have 100M+ organic views. Between 6 October and 2 November 2026, SciAstra's ISI–CMI channel had 604,601 views, up 277%. I also built EditSutra, an AI editing plugin for Premiere Pro that cuts hours of rough-cut work down to minutes.

KEY RESULTS

- **604,601 views in 28 days** on SciAstra's ISI–CMI channel (6 Oct – 2 Nov 2026): views up 277%, watch time up 94% to 1.8K hours, 564 new subscribers
- A Short I produced reached **3.6 lakh views in its first week**, 93% of them from the Shorts feed
- **541K of a channel's 572K monthly views** came from Shorts I produced (Sept 2025); AI Shorts averaged 100K+ views each
- **7 videos past 10 lakh views**: top long video 6.5M, top Short 5.3M, and Avadh Ojha videos I edited at 6.8M, 3.1M and 1.7M
- Helped Anushka Chaudhary's channel reach 100K subscribers in three months; content I made contributed to about **₹15 lakh in education sales**

EXPERIENCE

SciAstra · AI Video Producer / Content Lead / Senior Social Media Manager — Nov 2023 – Nov 2026

- Led content across YouTube and Instagram; produced and managed 500+ long videos and Shorts
- Turned declining channels around by fixing packaging and posting rhythm: CTR up 0.5% month on month, longer average view duration
- Made Shorts the entry point to long videos and built the funnel between them; AI Shorts averaged 100K+ views and timed content hit 7–10% CTR
- Brought HeyGen AI-avatar videos into the workflow in 2024, before they were common in India, and scaled them into a regular format
- Grew SciAstra English past 25K subscribers and the college channel past 9K
- Led and trained editors and designers, managed creators in India, the UK and Germany, and wrote the team's SOPs and monthly performance reports

Skillverse · Founder — Present

- Run content for creators and brands: research, scripting, editing, thumbnails, SEO and posting
- Planned a content and reputation campaign for Anushka Chaudhary that supported her growth to 100K YouTube subscribers in three months

EditSutra · Founder — Mac and Windows beta

AI editing plugin for Adobe Premiere Pro, built for creators who record in Hinglish, English and Hindi

- **The problem:** editors spend hours cutting silences, filler words and failed retakes by hand, and most AI editing tools only understand English
- **What I did:** chose the problem, designed the product and built and shipped it myself, including licensing and signed in-app updates
- **The result:** a 47-minute Hinglish recording becomes a 32-minute rough cut in about 10 minutes, keeping the take closest to the script; it also writes offline captions and finds Shorts by scoring hooks

EARLIER AND PARALLEL ROLES

- **Healing Hands by Shivangi · Content Producer, Instagram** – Produced several Reels past 100K views; the account gained 28K followers — Alongside SciAstra · until Sep 2026
- **Style Lounge / Deepak Gupta · Motion Graphics and Design** – Designed app banners and motion graphics Reels — Alongside SciAstra · until Sep 2026
- **DU Buddy · Motion Graphics and Video Producer** – Made motion graphics and social videos — Apr 2024 – May 2025
- **Dr. Rajeev Ranjan · Content Producer and Growth Manager** – Ran YouTube and Instagram end to end, from strategy and scripts to editing; 35K+ new followers — Before Nov 2023
- **AppSquadz, Noida · Video Editor and Graphic Designer** – Edited and packaged some of Avadh Ojha's most watched videos (6.8M, 3.1M, 1.7M views), including thumbnails and YouTube SEO — 8 months
- **Zen Health · Graphic and Motion Designer, Social Media Manager** – Made motion graphics and social content — 5 months
- **WTF Digital, Noida · Social Media Marketing Manager** – Led social campaigns and content strategy for clients — 3 months

SKILLS
